WOMEN'S HEART MASTERCLASS

The Monash Victorian Heart Institute invites primary care physicians, cardiologists, endocrinologists nurses, allied health professionals, and students, to attend our Women's Heart Masterclass.

THE PROGRAM

Chairperson **Prof Steve Nicholls**

Unique aspects of cardiac disease in women **Dr Esther Davis**

Menopause and heart disease **A/Prof Amanda Vincent**

Cardiac disease in pregnancy **Dr Siobhan Lockwood**

Cardiovascular disease (in aggregate) is the leading cause of mortality in Australian women however it remains underrecognised, underdiagnosed and undertreated. Managing and diagnosing CVD in women presents an increasingly challenging landscape for clinicians and health professionals to navigate. Our masterclass provides expert content and practical advice to increase awareness and provide a comprehensive update on cardiac risk factors relevant to women.

HOW TO REGISTER

The Masterclass will be available in person and online. Limited tickets are available for in-person attendance so be sure to register by scanning the QR Code or by visiting our registration portal (bit.ly/womensheartmasterclass)

LEARNING OUTCOMES

- Describe the burden of cardiovascular disease in women
- Describe cardiovascular risk factors in women, particularly those unique to women
- Determine cardiac conditions that are more common in women
- Consider the use of hormonal therapies in women with cardiac disease
- Determine appropriate follow up and referral for patients with cardiac disease planning pregnancy

 Tuesday, 5th December 2023

 6:00pm - 8:00pm
