Active Script List & Electronic Prescribing for Prescribers and Dispensers

Presented by

Brenton Jones

Senior Digital Health Officer, WNSW Primary Health Network

This webinar will provide an overview of electronic prescriptions for prescribers and dispensers and discuss what Active Script List (ASL) is and how ASL can be used as a tool by patients to manage their electronic prescriptions.

It will also discuss the role and responsibilities of providers and dispensers with electronic prescriptions and ASL. And how to register patients for Active Script List.

Program

12.30pm Welcome, Acknowledgement of Country & Introduction

12.35pm Education session

1.15pm Q&A

1.25pm Evaluation & Close

Note: Q&A time may be extended if there is a high level of audience engagement

Key Discussion Points and Learnings

- Discuss the benefits of electronic prescriptions for patients, healthcare professionals and the healthcare system.
- Explain what an Active Script List is, the benefits to patients & their healthcare providers, including how to register patients for ASL
- Explain the steps to prescribing general and authority electronic prescriptions & how they are dispensed.
- Outline the different ways that electronic prescriptions can be accessed by patients and healthcare providers.
