Using the My Health Record in Residential Aged Care

Facilitated by
Lisa Boes
Digital Health Support Officer

This webinar will provide an overview of My Health Record for managers and nurses working in Residential Aged Care. It will talk about the benefits and value for using My Health Record for sharing important health information to improve communication and coordination of care and support timely clinical decision making. And outline how authorized healthcare providers can access My Health Record.

Panel:

Brenton Jones
Senior Digital Health Officer

Key discussion points and learnings

- Recognise the type of documents held in My Health Record that can assist communication of resident's health information and continuity of care between health care providers.
- Describe advantages in using some of the key documents in My Health Record for sharing of health information and transition of residential care.
- Review how your organisation may currently access & use My Health Record
- Identify processes required to register access to My Health Record

This event will be recorded and available on demand.
