GP Program

# Perinatal in Practice

## Audience

GP Registrars; GPs; Practice Nurses; Midwives; Aboriginal Health Workers; Psychologists; Counsellors & Other Allied Health Professionals

## Duration & Format

9-hours  
Face to face  
(plus morning tea, lunch, and afternoon tea)

## Topics

**Topic 1:**  
Transition to Parenthood  
**Topic 2:**  
Understanding Attachment  
**Topic 3:**  
Screening & Diagnosis  
**Topic 4:**  
Postnatal Management  
**Topic 5:**  
Antenatal Management

## Description

This workshop aims to introduce health professionals to the current understanding of perinatal mood disorders and its management, using lecture, case studies and interactive exercises.

## Learning outcomes

- Recognise the psychosocial stressors that commonly affect parents in the perinatal period.
- Opportunistically screen women for perinatal mood disorders using a screening tool and clinical interview.
- Diagnose perinatal mood disorders as distinct from commonly experienced adjustment difficulties.
- Assess the risk of untreated perinatal depression for the mother-baby dyad.
- Select appropriate medications for pregnant and breastfeeding women when pharmacological treatment is indicated.
- Develop a comprehensive management plan using a MHTP for women with perinatal mood disorders.

## Accreditation

- 9 CPD hours incl. 5.5 hrs Education Activity & 3.5 hrs Reviewing Performance (ACRRM & RACGP).
- Mental Health CPD (GPMHSC).
- 9 hrs CPD (Psychologists).
