Learning outcomes

- Summarise current vaccination advice for COVID-19, influenza, pneumococcal and RSV, and describe how immunisation reduces disease transmission
- Identify and safely manage anaphylaxis following immunisation
- Use AIR reports to support data cleansing and quality improvement activities
- Identify key travel-related vaccine recommendations and apply current guidelines to assess risks and plan safe, evidence-based vaccination strategies for travellers
- Describe current meningococcal disease vaccine recommendations and high-risk groups, and apply evidence-based strategies to support timely vaccination to reduce morbidity and mortality

Event Photography & Recording

By attending this event, you consent to being filmed, photographed and recorded* by WNSW PHN, WNSW LHD & NCIRS. If you do not consent to your image or voice being recorded or shared, please email cpd@wnswphn.org.au prior to the conference date.
