

WNSW PHN funded education

Essentials of Primary Health Care Workshop

Invitation (Hybrid – Online & F2F)

Date

Friday, 30 October 2026

Time

9.00am to 5.00pm (ACST)

Venue

Western NSW Primary Health Network
Unit 4, 1 Rankin Street
BATHURST

Target audience

Nurses (NP, RN, EN, AIN), Aboriginal Health Workers and Aboriginal Health Practitioners

Funded CPD opportunity

This workshop is fully funded by Western NSW Primary Health Network (WNSW PHN) to support Nurses and Aboriginal Health Professionals working across our region in their professional development journey. As places are limited, we kindly ask that participants:

- **Work within the WNSW PHN region** (Western NSW and Far West NSW)
- Commit to attending and **completing the full day** of training
- Register early, as **places are limited**
- Understand that **registrations may be prioritised** should demand exceed workshop capacity
- Arrange a replacement participant, where possible, if circumstances require cancellation within 7 days of the workshop

Event Photography

By attending this event, you consent to being photographed by WNSW PHN and identified presenter(s)/partner(s). Any photographic material may then be used for online, social media, education, marketing, promotional and reporting purposes.

If you do not consent to your image(s) or voice being recorded or shared, please email cpd@wnswphn.org.au

Presenter

Deb Kerz

Education Manager – Delivery

Australian Primary Health Care Nurse Association (APNA)

Description

Designed for Nurses and Aboriginal Health Professionals at all stages of their career, this workshop will equip you with the latest knowledge, tools, and strategies for delivering high-quality, patient-centred care. Plus, you'll gain insights into further education pathways to support your ongoing professional development. This comprehensive workshop is designed to equip participants with the essential skills and knowledge required to excel in primary care settings. With a focus on chronic conditions management, immunisation, Australian Health Care System, and professional practice, this program will empower participants to deliver high-quality, patient-centred care.

Learning Outcomes

- **Describe** the role of primary health care nurses within the Australian health care system and recognise APNA's role in supporting professional development.
- **Apply effective** clinical assessment and triage principles to identify patient urgency and respond appropriately in primary health care settings.
- **Implement** infection prevention and control measures that protect patients, staff and the wider community, including in response to emerging infectious diseases.
- **Practise** ethically, legally and professionally within scope, with an understanding of accountability, delegation, supervision and leadership.
- **Use** evidence-based approaches to assess, monitor and support people living with chronic conditions and ageing-related health needs.
- **Undertake** foundational wound assessment and care, including wound cleaning, dressing selection and prevention of wound-healing complications.
- **Apply** immunisation principles safely and confidently, including vaccine administration, patient counselling and responding to adverse events.
