

WNSW PHN funded education

Wound Management Essentials Workshop:

Assessment, Treatment & Healing in Primary Health Care

Invitation (F2F)

Date

Tuesday, 15 September 2026

Time

9.00am to 5.00pm (ACST)

Venue

Thyme on Argent Function Centre

220 Argent Street

BROKEN HILL

Target audience

Nurses (NP, RN, EN, AIN); Aboriginal Health Workers and Aboriginal Health Practitioners working in general practice, AMS and ACCHO settings and Residential Aged Care Home Nurses

Note: If you are not part of the target audience but would like to be placed on a Wait List should places be available, please send a message Erica (email below)

Funded CPD opportunity

This workshop is fully funded by Western NSW Primary Health Network (WNSW PHN) to support Nurses and Aboriginal Health Professionals working across our region in their professional development journey. As places are limited, we kindly ask that participants:

- **Work within the WNSW PHN region** (Western NSW and Far West NSW)
- Commit to attending and **completing the full day** of training
- Register early, as **places are limited**
- Understand that **registrations may be prioritised** should demand exceed workshop capacity
- Arrange a replacement participant, where possible, if circumstances require cancellation within 7 days of the workshop

Event Photography

By attending this event, you consent to being photographed by WNSW PHN and identified presenter(s)/partner(s). Any photographic material may then be used for online, social media, education, marketing, promotional and reporting purposes.

If you do not consent to your image being shared, please email cpd@wnswphn.org.au prior to the workshop date

Presenter

Deb Kerz

Education Manager – Delivery

Australian Primary Health Care Nurse Association (APNA)

Build your confidence in wound assessment and management with this practical workshop designed for primary care clinicians.

Learn how to assess wounds holistically, identify infection, perform lower limb assessments, and apply evidence-based treatment strategies. Develop practical skills in clinical decision-making, risk management, debridement, and escalation to deliver safe, patient-centred care and improve wound healing outcomes.

Learning Outcomes

- **Assess** wounds holistically, identifying signs of infection and performing lower limb assessments
- **Apply** evidence-based wound management strategies to support optimal wound healing and patient outcomes
- **Develop** appropriate clinical decision-making, risk management, debridement, and escalation strategies to deliver safe, patient-centred wound care.
