Common Ear, Nose & Throat Conditions in General Practice

Presenter

Dr Hayder Ridha

Ear, Nose, Throat (ENT) Specialist (FRACS, FRCS (Oto.) FRCS (ORL-HNS) Ed)
Dubbo ENT and Advanced Hearing

Description

This session will support GPs to enhance their assessment and management of common ear, nose and throat (ENT) presentations encountered in general practice. Participants will explore ENT red flags, alarming signs and appropriate referral pathways to specialist services.

In addition, Dr Ridha will provide practical guidance on the management of epistaxis, including a practical demonstration of how to use nasal packing techniques to manage ENT emergencies within the primary care setting.

Program

- 6.30pm** Registration/light refreshments (*provided*)
- 6.55pm** Welcome
- 7.00pm** Didactic education session
- 8.00pm** Practical session: Nasal packing for ENT emergencies
- 8.10pm** Q&A and interactive discussion
- 8.25pm** Evaluation
- 8.30pm** Close

Learning Outcomes

1. **Discuss** the assessment, differential diagnosis and management of common otological disorders, complicated ear disease and red flag presentations in general practice
2. **Describe** the investigation and management of disorders affecting the nose and paranasal sinuses in primary care
3. **Outline** clinical assessment strategies, management considerations and appropriate referral pathways for paediatric presentations and patients presenting with head and neck lumps and sleep apnoea
4. **Explain** a practical approach to the assessment and management of epistaxis in general practice
