GP Masterclass – Syphilis Update

Presenter

Dr Tobias Vickers

Staff Specialist, Sexual Health (BMedSci, MD, FRACGP, FACHSHM, MPH)
Sydney Sexual Health Centre

Description

This virtual education activity has been developed in response to the current Western NSW LHD **Syphilis Alert across Western NSW**.

With syphilis notifications on the rise, GPs play a key role in early diagnosis, treatment and prevention of complications and transmission.

This practical session will provide an overview of the clinical stages of syphilis, how to order and interpret syphilis serology and navigate current evidence-based management and treatment options.

Dr Vickers will also discuss common pitfalls and red flags, when to seek specialist advice, and how and when to refer to sexual health services.

Program

6.25pm Participant login
6.30pm Webinar welcome
6.35pm Education Session
7.20pm Q&A and interactive discussion
7.30pm Evaluation & Close

Learning Outcomes

- Describe the key clinical stages and presentations of syphilis
- Select and interpret appropriate investigations for suspected syphilis, including relevant pathology results
- Describe evidence-based management and treatment options for patients diagnosed with syphilis
- Identify appropriate pathways for seeking specialist clinical advice and referring patients when indicated
- Recognise common diagnostic pitfalls and clinical red flags
